- Why do we play games?
- What kind of games do we play?
- Where do we play games?
- Benefits and cost of games
- The effect of video games on human brain
- Where are they going to be in next 10 years?

DESIGNERS EYE

Where are we going to write?

- C#,Java,Script...etc
- Minecraft,Invis
- Development kits such as Genesis3d
- Some programs that companies are developed for game designing

• For more information
<http://www.vfs.com>

DESIGNERS EYE

Types of games

DESIGNERS EYE

Basic rules of game design

DESIGNERS EYE

Basic rules of game design

- Games are not real world!
- Premise
- Verify && Validate
- Don't overwhelm with choices
- Understand the players
- Write a good story (Ludology supports)
- No essays
- Care about feedbacks
- Make a good game

DESIGNERS EYE
How are we going to submit them?

- Good entertainment
- Make short movie or trailer for them
- Put a release date and let people know (<http://vgreleases.com/>)
- If you are making extended version tell people what new is

DESIGNERS EYE
How do designers work?

- They work as a group

DESIGNERS EYE
Where do designers need to work?

- Game Designers Usually Work In A Relaxed Environment

DESIGNERS EYE
Where can we learn how to design games?

- There are game institutes for people such as [ITT Technical Institute](#), [DeVry University](#)
- Computer science department
- By ourselves

DESIGNERS EYE
How about accessories?

- Easy to use
- Ergonomic
- Not only compatible with few games
- Each operating system's driver has to work with accessories

USERS EYE
Why do we play games?

- Fun
- Educate

USERS EYE

What kind of games do we play?

There are actually 3 main types of game

- Sports
- Tabletop
- Videogames

USERS EYE

Sports Games

Soccer

USERS EYE

Benefits and cost of games

Benefits of games

- We can learn something new
- We can educate people for a reason
- We can have good time
- We could learn group work

USERS EYE

Benefits and cost of games

Cost of Games

- Time losing
- Money losing
- Physical or Mental problems or both

USERS EYE

The effect of video games on human brain

- Attention disorder
- Brain waves disorder
- Increased Aggressive Behavior
- Makes you asocial person

USERS EYE

Where are games going?

- Are we going to use our brains instead of joysticks?
- Are we going to be part of games?
- Nothing will be changed?
